Course Name: Android Application Development

Course Structure:

Total Lectures: 16

Training Course Outline

Lecture 1 : Introduction to programming (Java)

Installing Eclipse IDE.

Variable, constants,
arrays. If-else Conditions.

Loops.
Lab

Lecture 2 : Introduction to programming (Java)

Classes

Inheritance

Abstraction, Encapsulation
Polymorphism

Lab.

Lecture 3 : Basics of Android (Introduction to Android Studio)

Installing Android Studio. (Sdk)
Setting up emulator.

Going through With Android Studio.(Explanation of
IDE). Packages , API Levels .

Lecture 4 : Creating Hello World App In Android

Creating First App.
Resources folders.

Gradle (app level, project level). Manifest File.

Intro To Layouts Lab

Lecture 5 : Main Building Blocks (Part 1)

Activities

Activity lifecycle Intents

Moving Between Activities

Transfer Data Between Activities Lab.

Lecture 6 : Main Building Blocks (Part 2)

Services

Content Providers
Broadcast Receivers
Lab.

Lecture 7: Fragments

What are Fragments
Fragment life cycle

Attaching with activities

Passing data between fragments and activities Lab.

Lecture 8 : Basic Android User Interface

Intro To Xml

Views and layouts

Common UI components
Handling user events

Lab

Lecture 9 : Advanced Android User Interface

List Views.
Grid View.
Lab.

Lecture 10 : Multimedia in Android

Capture pictures From Camera.
Get Pictures From Gallery

Lab

Lecture 11 : Saving user information

Shared Preferences
Introducing SQLite

SQLiteOpenHelper and creating a
database Opening and closing a database

Working with cursors Inserts, updates, deletes

Lecture 12: Mapping and Location Based Services

Using Location Based Services
Finding Your Location

Using the Geocoder
Lab

Lecture 13 : Json

Json (What is Json)

Json Array,s and Json Objects
. First Look in json

Parsing of Json

Bacis About Network Request.
Assigning you your Final Project

Lecture 14: Using The Best Network Request API (Part 1)

Volley (Best Network Request API)
Getting Data From Live Server.

Decoding Data from JSON
Lab

Lecture 15 : Using The Best Network Request API (Part 2)

Studing Advance Custom Listviews.

Using Json to show Data into List View (Text and pictures).
Lab.

Lecture 16: Final app Development and testing and deployment to play store.
